Description			
On the Admin menu (e.g. <a href="#">main Admin page</a> ), the "Admin Home" link goes to <a href="https://vbz.net/admin/page:https://vbz.net/admin/">https://vbz.net/admin/page:https://vbz.net/admin/</a> . It should go to <a href="#">the Admin home page</a> -- and preferably, when we're currently on that page, it shouldn't be a link.
