Redmine - Bug #79

newly-defined task-statuses don't show up in the drop-down

12/03/2016 12:49 PM - Woozle Hypertwin

Description

I added a new [status](#) , "specifying". It doesn't show up on the list of status choices when creating or updating a bug. If I make it the default, it becomes the *only* option on the list.

This must be a newish bug, because I'm pretty sure "feedback" is a status I added a few years ago.
